

Maschine Installation and Info

Thanks for downloading the Cassette808 for Maschine

This sample pack was created by recording a TR808 onto cassette and then sampling that recording.

Installing the Cassette808 is reasonably easy. The next couple of pages will give you step-by-step instructions on installing this product...

Unzip the **Cassette808** archive.
Move the **Cassette808** folder to your Maschine Standard User Directory. By default, this is installed to:

Mac:

/Mac HD/Users/<username>/Documents/Native Instruments/Maschine/

Windows PC:

/C://Documents and Settings/<your username>/My Documents/Native Instruments/Maschine/

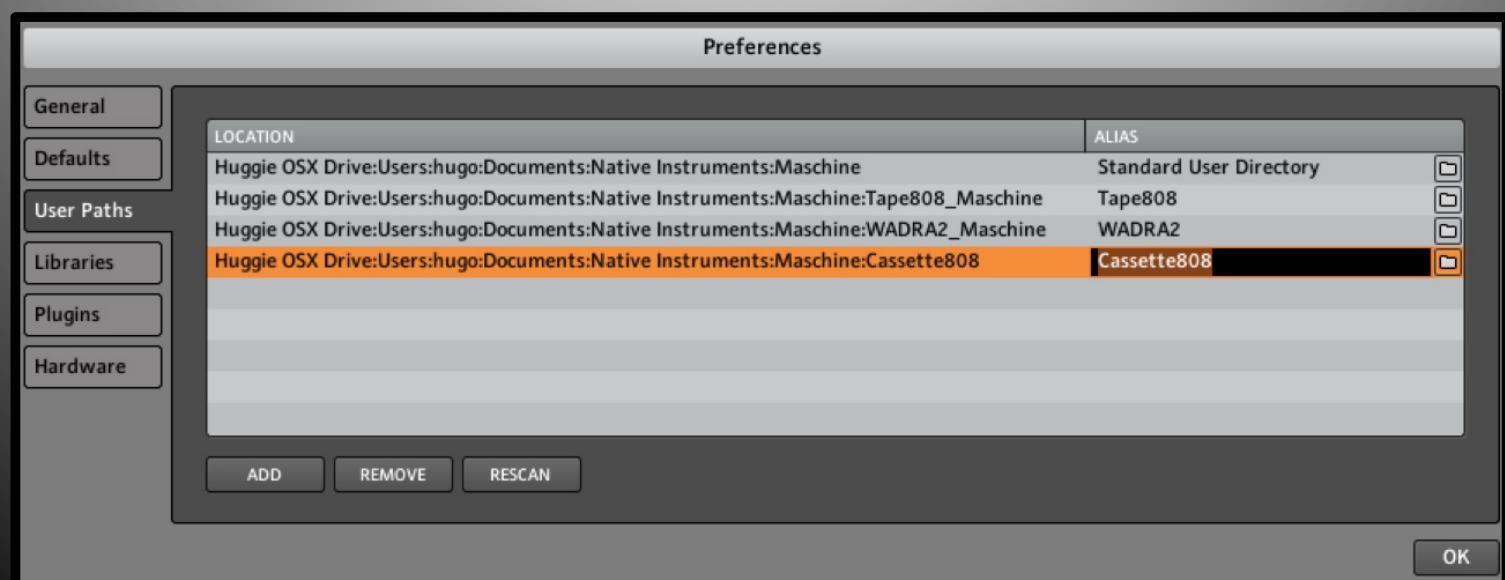

In Windows PCs the **Cassette808** folder should sit on the top level of the Maschine folder, next to the Groups, Projects, Sounds folders.

If you are unsure where your Standard User Directory is located, find where it is by checking the “User Paths” in the Machine preferences window.

Next add the **Cassette808** folder as a User Path in the Maschine preferences. Open the preferences window, go to “User Paths”, click the “Add” button and navigate to and select the **Cassette808** folder in the file browser window that opens. Click OK in the browser window and in the preferences window. Maschine will now perform a rescan.

You will also need to add the Alias **Cassette808** in the ALIAS box.

The User Paths window will now look similar to this:

Cassette808 stuff will now be available from within the Maschine browser in the Groups and Samples categories:

You are now ready to enjoy some Cassette808 love!

Terms and Conditions

Goldbaby is the owner and master licensee of the Cassette808. Downloading this sample pack gives you the perpetual, non-exclusive right to incorporate the samples and beats in any musical production.

You may not re-distribute this sample pack, either in native format or reformatted for use as samples, multi-samples, programs or patches in a sampler, sample playback unit, website or computer.

Many thanks
Hugo
